PROFESSIONAL SUMMARY

A Software Engineering undergraduate with expertise in full-stack development, distributed systems, and cloud-native microservices architecture. Combining strong academic foundations in software design and enterprise application frameworks with hands-on experience building scalable, production-ready systems using modern technologies including Spring Boot, React, Node.js, Docker, and PostgreSQL.

TECHNICAL PROJECTS

MediCare: AI-Enabled Health Platform

Spring Boot, React, Kafka, Docker

- A comprehensive, event-driven healthcare platform architected with Spring Boot microservices, Kafka, and a React frontend.
- Streamlines clinical workflows by integrating an AI-powered symptom checker, dynamic appointment management, and secure telemedicine capabilities orchestrated via Docker.

Meet Mind AI

Next.js, PostgreSQL, Stream SDK, OpenAI

- A robust real-time communication application supporting live video and chat via Next.js and a serverless PostgreSQL architecture.
- Leverages OpenAI and Inngest to deploy intelligent background agents that process meeting data and generate automated PDF reports.

Civic Engagement Platform

MERN Stack, GitHub Actions, Nginx

- A scalable web application designed to enhance civic participation through issue tracking, community marketplaces, and green initiative management.
- Built with React and Node.js/MongoDB; integrates third-party geocoding and Cloudinary services, backed by a robust CI/CD pipeline.

Habit360

Android SDK, Kotlin, Broadcast Receivers

- A comprehensive lifestyle-tracking Android application developed natively in Kotlin.
- Combines habit management and mood journaling with user-centric features like custom home screen widgets, automated hydration reminders, and secure user authentication.

TECHNICAL SKILLS & CORE COMPETENCIES

- **Programming Languages:** Java, Python, C, C++, PHP, JavaScript, SQL
- **Web Development:** HTML, CSS, PHP, Java Servlets (plus modern frameworks via projects: React, Next.js, Node.js)
- **Database Management:** SQL Querying, PostgreSQL, MongoDB, Database Management
- **Design & Tools:** Photoshop, Creative Design, Microsoft Office Suite
- **Soft Skills:** Team Collaboration, Leadership, Quick Learner, Knowledge Sharing, Critical Thinking

EDUCATION

Bachelor of Science in Software Engineering

2023 – Present

Sri Lanka Institute of Information Technology (SLIIT)

- Currently an undergraduate student focusing on software architecture, full-stack development, and system engineering.

G.C.E. Advanced Level (Physical Science Stream)

2020 – 2022

Bandarawela Central College

- Results: Chemistry (A), Physics (C), Combined Mathematics (S)

G.C.E. Ordinary Level (English Medium)

Bandarawela Central College

2009 – 2019

- Results: 5 A's, 3 B's, 1 C (Including 'A' for English Literature)

QUALIFICATIONS & CERTIFICATIONS

- **Oracle Certification:** Udemy certification for Oracle Java SE 17 Developer Professional (1Z0-829 Exam).
- **Python Development:** Completed "Python for Beginners" via the University of Moratuwa.
- **Banking & Finance:** Passed the IBSL (Institute of Bankers of Sri Lanka) examination.
- **Extracurricular:** Visharad Part 2 music examination qualified individual (Instrumental Violin).
- **Extracurricular:** Participated in Dharma School 'Daham Danuma' competitions.

LANGUAGES

English (Fluent) · Sinhala (Native)
